Herbal Teas & Infusions

BERRY INFUSION: 5

We can define this infusion as a "fruit salad" of red fruits, where each single berry gives all its sweetness and aroma. Excellent to consume both hot and cold, the "Frutti di bosco" infusion restores and strengthens the spirit and body during the cold season, invigorates and quenches thirst during the warmer periods.

PINK GINGER INFUSION: 5

The strong rose scent is definitely the prevailing note. The whole thing is made "sparkling" and lively by a light spicy pungency due to the ginger.

SUN FRUITS INFUSION ROOIBOS BLEND: 5

The taste of rooibos is enriched by the aromas of exotic fruits. This combination creates a rich and intense infusion, full of enveloping and very persistent aromas. Almost balsamic, the infusion is thirst-quenching and refreshing, excellent for recovering physical and mental vigor.

CAMOMILE FLOWERS INFUSION: 5

From the beautiful flower that contains the color and warmth of the sun, comes the most famous and relaxing herbal tea. Sipped at any time of the day, with its sweet flavor and delicate scent, it promotes relaxation and night's rest for adults and children.

ENGLISH BREAKFAST BLACK TEA: 5

The strong and decisive taste of this tea makes it ideal for an energetic and invigorating breakfast. Indian and Ceylon teas have been selected for this blend.

GREEN TEA GINGER & LIME: 5

The pleasant pungency typical of ginger and the fresh and citrusy scent of lime harmonize perfectly with the characteristic herbaceous taste of green tea. Fresh and thirst-quenching, it is perfect for any time of the day.

DARJEELING BLACK TEA MARGARET'S HOPE (ORIGINE INDIA): 6

It takes its name from the garden that rises in the Darjeeling region, so called in the thirties, in honor and memory of the owner's daughter. Black tea of the highest quality, obtained by collecting only the still closed buds. Round, soft and particularly enveloping to the taste. Its initially fruity and floral aroma, gives way to more evolved scents such as honey and sweet spices.

SCENTED GREEN TEA JASMINE PEARLS (ORIGIN CINA): 6

The round, sweet and delicate taste of jasmine is immediately perceptible. The leaves release a fresh and persistent aroma with a bright yellow-green infusion. Ideal for those looking for a delicate and beneficial tea, known for its great beneficial properties.

WHITE TEA - WILD WHITE TEA BUDS (ORIGIN YUNNAN): 6

These rare tea buds are little treasures. They are picked directly from the stem of the oldest Camellia Sinensis in the Chinese region of Yunnan. The color of the infusion is very light, totally transparent and brilliant. It has a surprisingly intense taste. The initial intensity of the aroma that recalls green bark and unripe fruit, evolves significantly with each sip, towards a particular sweet and honeyed note, very persistent.

KEKECHA YELLOW TEA (ORIGIN CINA): 6

It is a green tea in limited production and is grown on the high peaks of Guangdong in China, near cocoa plantations. The name Kekecha, in fact, derives from Keke (chocolate) and Cha (tea). Its aroma is particular, sweet and refreshing with a honeyed hint and an aftertaste reminiscent of chestnut. Its low caffeine content makes it suitable for everyone.

MATCHA TEA (ORIGIN GIAPPONE): 6

Japanese green tea whose leaves are hand-picked, steamed and ground into a very fine powder with stone mills. Rich in vitamins, mineral salts and powerful antioxidants. Stimulates the metabolism, detoxifies, strengthens the immune system and gives energy and good mood.

A decorative background featuring a central floral motif with two large flowers and several buds, rendered in a light, sketchy style. The text is overlaid on this background.
